Projects Handled

- Completed a UGC Minor Project on Women Participation in NREGS in two backward districts of West Bengal.

I need to upgrade myself in econometric tools and models so that I can use them in further research works and publications. Knowledge up-gradation in econometrics is also necessary for teaching and supervising the project works of the students. Therefore, participation in such course programmes focused on econometric tools and models is quite necessary for us, who are not specialized in econometrics.
